

JAHANVI BANSAL

UX & Visual Designer

+91 8130748577

jahavibansal03@gmail.com

I design experiences that make people smile. By blending creativity, research, and a pinch of storytelling, I turn ideas into intuitive, meaningful interactions that feel enjoyable and human. I love observing how people interact with products, finding hidden pain points, and experimenting with solutions that can make interactions smoother and more engaging.
